COVID-19 Data by School District Weekly Summary

October 20, 2020

Background Information and Considerations

This report provides data on confirmed COVID-19 cases from October 5 - October 18, 2020 for school districts located within the Fond du Lac County Health Department (FCHD) jurisdiction. Data may be underreported for recent days because test results can take multiple days to be reported to the health department. Data are subject to change as cases are investigated, for example as updates or corrections are made to case information. As this is a weekly report for the past 14 days, there will always be a week of overlap between reports.

The COVID-19 data provided in this report is specific to the FCHD jurisdiction (population: 105,269). It does not include data or cases for the portions of the school districts that fall outside of Fond du Lac County. It is important to note that some of the school districts in this report have a portion of the school district that falls outside of Fond du Lac County which may cause case counts for the past two weeks and case rates to be underreported. The burden status for those school districts should be considered with this in mind, that this report only accounts for case counts within the Fond du Lac County jurisdiction. FCHD only provides case counts, case rates, and burden status based on the jurisdiction of Fond du Lac County. School districts that have no schools located within Fond du Lac County are not included in this report.

Case rates fluctuate greatly with small population sizes. Interpret with caution, rely more on case counts and trend of case counts over time to estimate risks. Decisions about learning models for school districts should not be based solely on this data.

Confirmed Cases by School District for the Past Two Weeks (October 5 – October 18)

	Case Count for past 2 weeks	Case Rate (per 100,000)	Burden*	Population**
Campbellsport School District	112	1,074.8	Very High	10,421
Fond du Lac School District	530	997.3	Very High	53,143
North Fond du Lac School District	138	1,655.3	Very High	8,337
Oakfield School District	40	1,221.0	Very High	3,276
Ripon Area School District	103	984.8	Very High	10,459

Rosendale-Brandon School District	68	1,188.4	Very High	5,722
Waupun Area School District	78	405.2	Very High	19,251
Fond du Lac County	1,126	1,069.6	Very High	105,269

*Burden is based off of the case rate per 100,000 people in the past two weeks. Interpret with caution as case rates fluctuate greatly with small population sizes. Visit the DHS website for more information on this indicator and county case rates and burden <https://www.dhs.wisconsin.gov/covid-19/local.htm>

**Population for school district was retrieved from <https://nces.ed.gov/programs/edge/TableViewer/acsProfile/2018>.

Population for Fond du Lac County was retrieved from July 1, 2020 ESRI Census Block Apportionment Data Enrichment.

Note: Fond du Lac County Health Department jurisdiction reports for the portions of the school districts that fall within Fond du Lac County.

Number of Confirmed Cases and Rate per 100,000 People by School District (SD) Geographic Boundary and Age Group in the Past Two Weeks (October 5 – October 18)

	Campbellsport SD	Fond du Lac SD	North Fond du Lac SD	Oakfield SD	Ripon SD	Rosendale-Brandon SD	Waupun SD
Age Group	# of Cases	# of cases	# of cases	# of cases	# of cases	# of cases	# of cases
<5	1	8	2	1	0	2	0
5-9	1	11	3	3	2	3	0
10-14	5	25	7	3	5	1	1
15-19	5	39	13	1	3	4	3
Total 0-19 Cases	12	83	25	8	10	10	4
0-19 Population Case Rate (per 100,000)	115.2	156.2	299.9	244.2	95.6	174.8	20.8
0-19 Burden Status	High	High	High	High	Moderately High	High	Moderate

Note: Rate is determined by # of new confirmed cases during the past two weeks divided by population in the school district geographic boundary multiplied by 100,000. Rates can fluctuate greatly with small population sizes making it difficult to call out high rates. Small population data may be more effectively looked at in a trend wise fashion.

Burden Status	Case Rate per 100,000 residents in the past two weeks
Low	Case rate is less than or equal to 10.
Moderate	Case rate is greater than 10, but less than or equal to 50.
Moderately High	Case rate is greater than 50, but less than or equal to 100.
High	Case rate is greater than 100.
Very High	Case rate is greater than 350.

Note: Number of cases for each Burden Status refers to the number of cases during a two-week time span.
